## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-30 are drawn to the structure of the armature assembly of the motor, classified in class 310, subclass 215.

Group II. Claims 31-35 are drawn to the method of making the armature assembly, classified in class 29, subclass 596.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I and Group II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the motor can be made different by premolding the casing.
